Application to Review a Boundary Line Adjustment

Instructions: Fee: \$350.00 Code 54.29

- This is an application to review a proposal to adjust property lines between 2 or more properties where at least one of the parcels is to utilize an on-site sewage system for wastewater disposal.
- Soil profile holes may be required on each lot. These holes shall be ten (10) feet deep and located where requested by the Health District. The applicant and individual excavating holes are responsible for constructing and maintaining the soil profile excavations in a manner to reduce potential for physical injury as required by WAC 296-155 and shall immediately backfill the excavations upon completion of the Health Officer's review. Based on the results obtained, additional testing may be required.
- Based on the findings at the inspection of these holes, and other criteria, the Health Officer may approve the proposal, ask for further information, or restrict the subdivision of the property. Additional activities may include groundwater monitoring which may take up to a year to complete and will be conducted at the applicant's expense.
- Fees: Fees will be charged in accordance with the current fee schedule, and must be submitted with the application.
FEES PAID ARE NON-REFUNDABLE AND NON-TRANSFERABLE.
- **Please use the reverse side of the application to develop a scaled plan for the boundary adjustment or attach on a separate sheet.**
- This application and subsequent development are subject to all other applicable laws. It is the applicant's responsibility to comply with said laws.
